These guidelines are a set of rules that have been developed to accompany and complement the official conventions and instructions provided within the ICD-10-CM itself. The instructions and conventions of the classification take precedence over guidelines. These guidelines are based on the coding and sequencing instructions in the Tabular List and Alphabetic Index of ICD-10-CM, but provide additional instruction. Adherence to these guidelines when assigning ICD-10-CM diagnosis codes is required under the Health Insurance Portability and Accountability Act (HIPAA). The diagnosis codes (Tabular List and Alphabetic Index) have been adopted under HIPAA for all healthcare settings. A joint effort between the healthcare provider and the coder is essential to achieve complete and accurate documentation, code assignment, and reporting of diagnoses and procedures. These guidelines have been developed to assist both the healthcare provider and the coder in identifying those diagnoses that are to be reported.

Olympe de Gouges was the most important fighter for women's rights you've never heard of. An activist and writer in revolutionary Paris, she published 'The Declaration of the Rights of Women' in 1791, and was beheaded two years later, her articulate demands for equality proving too much for their time. Over one hundred and fifty years later, the key statements of her declaration were internationally endorsed by the United Nations in its Declaration on the Elimination of Discrimination Against Women, which in turn went on to be legally recognized by nearly every country in the world. This volume presents both of these key texts along with enlightening and inspiring commentary from a host of powerful women, from Virginia Woolf to Hillary Clinton.
