The chemicals manufacturing industry is a vibrant, global business that encompasses many important sectors. Key products include biochemicals, nanochemicals, polymers, petrochemicals, fertilizers, plastics, coatings, ceramics, solvents, additives, dyes and many other products basic to home and business needs. In addition, the pharmaceuticals industry is often included when discussing chemicals. Commodity chemicals, specialty chemicals and custom manufacturing are important sectors of the business. Our new Plunkett's Chemicals, Plastics & Coatings Industry Almanac covers these sectors in detail. Our coverage includes business trends analysis and industry statistics. We also include a chemicals, plastics and coatings business glossary and a listing of industry contacts, such as industry associations and government agencies. Next, we profile hundreds of leading companies. Our company profiles include complete business descriptions and up to 27 executives by name and title. The CD-ROM that is included with the book versions enables you to search, filter and view selected companies and organizations. Once selected, company contact data from the CD-ROM can be exported to create mailing lists. The exciting new book covers competitive intelligence, market research and business analysis--everything you need to know about the chemicals and plastics business.

Jury Instructions on Products Liability, Fourth Edition covers the issues likely to arise in a trial. Judges have given them, juries have followed them, and appeals courts have tested them. Each instruction cites supporting case law, including relevant law review articles and annotations to American Law Reports, to save time and effort in finding support for your request. Jury Instructions on Products Liability explains the issues for the layman, translating complex legal issues into everyday language. Tailor each instruction to fit the unique details of your case and fine-tune the issues to assert more control over jury deliberations. Jury Instructions on Products Liability includes hundreds of instructions on these and other topics: • Duty to warn • Strict products liability • Unavoidably unsafe products • Warranty liability and misrepresentation • Design defect liability • Risk-utility doctrines • Testing and inspection • Industry standards and customs • Comparative negligence • Assumption of risk • Causation The Fourth Edition also addresses the New Restatement of Torts: Products Liability.

This book analyses the current state and potential of economic and financial integration in South Asia, which has emerged as one of the most dynamic regions of the world. It looks at how regional convergences and cooperation would reinforce ties amongst the diverse economies of South Asia in the changing global economic landscape. Drawing on empirical research, the book looks at the degree of economic and financial integration in South Asia, which according to the World Bank includes the least integrated regions in the world, and explores the fundamental factors that drive integration amongst these countries. It offers important insights into the financial landscape of the region, as well as the dynamics of the interlinkages in the banking system, the stock markets, and the debt markets. The book examines the role of bilateral trade in augmenting regional economic ties, the opportunities for growth these will foster, and the major challenges and roadblocks for the leaders of the region. It also provides an overview of China ' s role in South Asia ' s financial integration and the interdependence of these economies for economic opportunities, macroeconomic and financial stability, jobs, sustainable growth, and inclusive development. Detailed and insightful, this book will be of great interest to investors and regional policymakers. It will also be of interest to researchers and students of economics, public and foreign policy, finance, international relations, and South Asia studies.
