Collection of the monthly climatological reports of the United States by state or region, with monthly and annual national summaries.

"Vivid, enthralling, absolutely first class" Daily Mail Summer, 1947. Kate Herrick, widowed in the war, returns to Rose Cottage, her childhood home, to retrieve a few family papers before the house is sold. But Rose Cottage is not the idyllic paradise she remembers from her childhood. The papers themselves are missing, and neighbours tell stories of night-time prowlers. Kate discovers that the long shadow of an old secret lies over the house, and in bringing Rose Cottage into the light she will finally be forced to confront the truth of her own past. Beyond the weedy garden with its riot of rose bushes, nothing had changed. The beck, wide here and quiet, slid past below the bridge. Willows and wild roses, cuckoo pint and king cups, and a wood pigeon crooning in the elms. And someone crossing the bridge to approach the garden gate. Someone I knew well... Mary Stewart's last novel, *Rose Cottage* is a classic of her writing. Featuring a spunky heroine, an exceptional eye for detail, romance, intrigue and the gentle promise of a bright future, *Rose Cottage* is a must-read for all fans... and everyone who loves a good story beautifully told. "There are few to equal Mary Stewart" Daily Telegraph "A comfortable chair and a Mary Stewart: total heaven. I'd rather read her than most other authors" Harriet Evans

This book provides case studies and general views of the main processes involved in the ecosystem shifts occurring in the high mountains and analyses the implications for nature conservation. Case studies from the Pyrenees are preponderant, with a comprehensive set of mountain ranges surrounded by highly populated lowland areas also being considered. The introductory and closing chapters will summarise the main challenges that nature conservation may face in mountain areas under the environmental shifting conditions. Further chapters put forward approaches from environmental geography, functional ecology, biogeography, and paleoenvironmental reconstructions. Organisms from microbes to large carnivores, and ecosystems from lakes to forest will be considered. This interdisciplinary book will appeal to researchers in mountain ecosystems, students and nature professionals. This book is open access under a CC BY license.

A collection of essays by the art historian Aby Warburg, these essays look beyond iconography to more psychological aspects of artistic creation: the conditions under which art was practised; its social and cultural contexts; and its conceivable historical meaning.

Katherine Mansfield (Wellington, Nova Zelanda, 1888 - Fontainebleau, França, 1923) va ser una dona lliure i anticonvencional, dotada d'una sensibilitat finíssima, que es va revelar com un dels més grans talents narratius de la seva època, malgrat morir als 34 anys. Els seus contes van saber captar la subtilesa del comportament humà i van obrir una via que han seguit tants escriptors i escriptores del segle XX. Mercè Rodoreda en va reconèixer el mestratge, com Hemingway, Salinger i Cheever. Aquest volum recull per primer cop la seva obra narrativa completa, això vol dir els reculls En una pensió alemanya, Felicitat, Festa al jardí, Un niu de tòrtores i Una mica infantil, en traduccions noves o bé revisades de Marta Pera, Pep Julià i Anna Llisterrí.

This book approaches persuasion in public discourse as a rhetorical phenomenon that enables the persuader to appeal to the addressee’s intellectual and emotional capacities in a competing public environment. The aim is to investigate persuasive strategies from the overlapping perspectives of cognitive and functional linguistics. Both qualitative and quantitative analyses of authentic data (including English, Czech, Spanish, Slovene, Russian, and Hungarian) are grounded in the frameworks of functional grammar, facework and rapport management, classical rhetoric studies and multimodal discourse analysis and are linked to the constructs of (re)framing, conceptual metaphor and blending, mental space and viewpoint. In addition to traditional genres such as political speeches, news reporting, and advertising, the book also studies texts that examine book reviews, medieval medical recipes, public complaints or anonymous viral videos. Apart from discourse analysts, pragmaticians and cognitive linguists, this book will appeal to cognitive musicologists, semioticians, historical linguists and scholars of related disciplines.
