Offers an introduction to the Wu-Tang Clan, revealing the web of personalities and alter egos, warrior codes, numerological systems, and Eastern spiritual and philosophical concepts that define their world.

Based on ten years of research among hip-hop producers, Making Beats was the first work of scholarship to explore the goals, methods, and values of a surprisingly insular community. Focusing on a variety of subjects—from hip-hop artists’ pedagogical methods to the Afrodiasporic roots of the sampling process to the social significance of “digging” for rare records—Joseph G. Schloss examines the way hip-hop artists have managed to create a form of expression that reflects their creative aspirations, moral beliefs, political values, and cultural realities. This second edition of the book includes a new foreword by Jeff Chang and a new afterword by the author.

Examining the dynamics of hip-hop from every region and in every form—mainstream and underground, current and classic—this compelling how-to discusses everything from content and flow to rhythm and delivery in relation to the art and craft of rap. Compiled from the most extensive research on rapping to date, this first-of-its-kind guide delivers countless candid and exclusive insights from more than 100 of the most critically acclaimed artists in hip-hop—including Clipse, Cypress Hill, Nelly, Public Enemy, Remy Ma, Schoolly D, A Tribe Called Quest, and will.i.am—unraveling the stories behind their art and preserving a wealth of the genre’s history through the words of the legends themselves. Exhaustively detailing the many complex aspects of rapping—such as utilizing literary tools and devices to strengthen content, battling, imagery, similes, metaphors, analogies, slang, performing both live and in the studio, word play, controversial content and punchlines, and constructing beats, singles, and freestyling—with emphasis on enunciating and breathing for unique vocal style, this remarkable book will benefit beginners and pros alike with its limitless wealth of rapping lore and insight.
