The first in-depth analysis of the radical feminist theory and coalitional praxis of scholar-activist María Lugones. Speaking Face to Face provides an unprecedented, in-depth look at the feminist philosophy and practice of the renowned Argentinian-born scholar-activist María Lugones. Informed by her identification as “ nondiasporic Latina ” and US Woman of Color, as well as her long-term commitment to grassroots organizing in Chicana/o communities, Lugones ’ s work dovetails with, while remaining distinct from, that of other prominent transnational, decolonial, and women of color feminists. Her visionary philosophy motivates transformative modes of engaging cultural others, inviting us to create political intimacies rooted in a shared yearning for interdependence. Bringing together scholars and activists across fields, this volume charts her profound impact in and beyond the academy for the past thirty years. In so doing, it exemplifies a new method of coalitional theorizing—traversing racial,

ethnic, sexual, national, gendered, political, and disciplinary borders in order to cultivate learning, embrace heterogeneity, and provide a unique framework for engaging contemporary debates about identity, oppression, and activism. Across thirteen original contributions, authors address issues of intersectionality, colonial and decolonial subjectivities, the multiplicity and the colonality of gender, indigenous spiritualities and cosmologies, pluralist and women of color feminisms, radical multiculturalism, popular education, and resistance to multiple oppressions. The book also includes a rare interview with Lugones and an afterword by Paula Moya, ultimately offering both new critical resources for longstanding admirers of Lugones and a welcome introduction for newcomers to her groundbreaking work. “ This is an important contribution to Latinx studies, Latina feminist philosophy, queer studies, and the burgeoning field of decolonial feminism, a field that Lugones almost single-handedly launched. It is interdisciplinary, but also a wonderful pedagogical resource. It provides readers who are both familiar and unfamiliar with her work a thorough and judicious point of entry. ” — Eduardo Mendieta, author of *Global Fragments: Globalizations, Latinamericanisms, and Critical Theory*

Consisting almost entirely of new essays specially prepared for this volume, *Feminist Interpretations of Hannah Arendt* illuminates the diversity of contemporary feminisms while also generating new and suggestive readings of Hannah Arendt's political thought. The contributing authors' shared interest in Arendt provides a ground upon which to work out their disagreements regarding feminist theory and practice. At the same time, their shared commitment to some brand of feminism leads them to engage Arendt on an unusually wide array of issues, such as gender, sexuality, the body, politics, friendship, solidarity, identity, nationalism, and revolution. Recent developments in feminist theory and practice have prompted a reconsideration of Arendt that includes a critical reevaluation of earlier feminist judgments of her work. From feminist perspectives that interrogate, politicize, and historicize--rather than simply redeploy--categories like "woman," "identity," or "experience," Arendt's well-known hostility to feminism and her critical stance toward identitarian and essentialist definitions of "woman" begin to look more like an advantage than a liability. Arendt's famous reluctance to identify herself as a woman and to address women's issues looks less like a personal problem of male-identification and more like a political stand that resists the reach of a symbolic order that seeks to define, categorize, and stabilize her in terms of one essential, unripened, and always known identity. Thus, the volume's authors move beyond feminism's traditional concern with the "woman question" to ask, further, what contemporary feminisms might learn from Arendt's conceptions of politics, action, and identity.
