The primary objective of this NATO Advanced Study Institute (ASI) was to

Where To Download

present an up-to-date overview of various current areas of interest in the field of photovoltaic and related photoactive materials. This is a wide-ranging subject area, of significant commercial and environmental interest, and involves major contributions from the disciplines of

Therefore, we sought
to adopt an inter
disciplinary approach,
bringing together
recognised experts in
the various fields
while retaining a level

importance to the
materials and devices
to be addressed in
later lectures. Building
upon this, the ASI
then progressed to
more detailed aspects
of the subject area.
