Around the Cul-de-sac is the debut short stories collection by emerging humor writer Christina De Paris. The ebook recounts the inner workings of Sydney Lagunilla, a kid growing up in the '90s who views trespassing on her neighbors' properties as doing them a favor. In this work of realistic fiction, the Central Florida native finds a way to skirt a standardized test worksheet, and in an above-ground pool, acts out the farewell floating door scene in Titanic. Sydney's ruling passions undergo rapid shifts, occupying her time with rowboat adventures or whatever sport features in the latest (now nostalgic) family comedy. She could be catching lizards one moment, then staging a performance of the 1996 Grammy Nominees album in the next. The 16 stories are magnetic and will leave readers bemused through seriously funny and honest narration.

School psychologist Skye Denison has reluctantly returned to her hometown of Scumble River, where she finds mystery and romantic intrigue aplenty. Original.

Master today's MATLAB technical programming language while strengthening problem-solving skills with the help of Chapman's successful MATLAB PROGRAMMING FOR ENGINEERS, 6th Edition. Readers learn how to write clean, efficient and well-documented programs while simultaneously gaining an understanding of the many practical functions of MATLAB. This edition presents the latest version of MATLAB R2018a and work with new MATLAB GUI Apps. The first nine chapters provide a basic introduction to programming and problem solving, while the remaining chapters address more advanced topics, such as I/O, object-oriented programming, and Graphical User Interfaces (GUIs). With its comprehensive coverage, MATLAB PROGRAMMING FOR ENGINEERS, 6th Edition serves as invaluable reference tool for any advancing or practicing engineers who work with MATLAB. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Educational Research: Quantitative, Qualitative, and Mixed Approaches by R. Burke Johnson and Larry Christensen offers a comprehensive, easily digestible introduction to research methods. Readers will develop an understanding of the multiple research methods and strategies used in education and related fields, including how to read and critically evaluate published research and how to write a proposal, construct a questionnaire, and conduct an empirical research study on their own. The Seventh Edition maintains the features that made this book a best-seller, including attention-grabbing chapter-opening vignettes, lively examples that engage reader interest, a conversational and friendly writing style, and more. With the support of this highly readable text, readers will transform into critical consumers and users of research.
