When Hope Edelman, author of the New York Times bestseller Motherless Daughters, became a parent, she found herself revisiting the loss of her mother in ways she had never anticipated. Now the mother of two young girls, Edelman set out to learn how the loss of a mother to death or abandonment can affect the ways women raise their own children. In Motherless Mothers, Edelman uses her own story as a prism to reveal the unique anxieties and desires that these women experience as they raise their children without the help of a living maternal guide. In an impeccably researched, luminously written book enriched by the voices of the mothers themselves—and filled with practical insight and advice from experienced professionals—she examines their parenting choices, their triumphs, and their fears, and offers motherless mothers the guidance and support they want and need.

Letters from Motherless Daughters is a compilation of the letters Hope Edelman received in response to her groundbreaking New York Times–bestseller, Motherless Daughters. Reaffirming her precious link with motherless women across the country, Edelman presents these moving, honest, and often hopeful letters alongside her own insight to offer readers the opportunity to further learn from loss. The words of these brave women illustrate the profound pain, astounding strength, and undying perseverance of living through the loss of one ’ s mother without ever outliving the need for her. Edelman has added a new introduction and new letters, tailoring this important book to a new generation.

A validating new approach to the long-term grieving process that explains why we feel " stuck, " why that ' s normal, and how shifting our perception of grief can help us grow—from the New York Times bestselling author of Motherless Daughters " This is perhaps one of the most important books about grief ever written. It finally dispels the myth that we are all supposed to get over the death of a loved one. " —Claire Bidwell Smith, author of Anxiety: The Missing Stage of Grief Aren ’ t you over it yet? Anyone who has experienced a major loss in their past knows this question. We ’ ve spent years fielding versions of it, both explicit and implied, from family, colleagues, acquaintances, and friends. We recognize the subtle cues—the slight eyebrow lift, the soft, startled " Oh! That long ago? " —from those who wonder how an event so far in the past can still occupy so much precious mental and emotional real estate. Because of the common but false assumption that grief should be time-limited, too many of us believe we ’ re grieving " wrong " when sadness suddenly resurges sometimes months or even years after a loss. The AfterGrief explains that the death of a loved one isn ’ t something most of us get over, get past, put down, or move beyond. Grief is not an emotion to pass through on the way to " feeling better. " Instead, grief is in constant motion; it is tidal, easily and often reactivated by memories and sensory events, and is re-triggered as we experience life transitions, anniversaries, and other losses. Whether we want it to or not, grief gets folded into our developing identities, where it informs our thoughts, hopes, expectations, behaviors, and fears, and we inevitably carry it forward into everything that follows. Drawing on her own encounters with the ripple effects of early loss, as well as on interviews with dozens of researchers, therapists, and regular people who ’ ve been bereaved, New York Times bestselling author Hope Edelman offers profound advice for reassessing loss and adjusting the stories we tell ourselves about its impact on our identities. With guidance for reframing a story of loss, finding equilibrium within it, and even experiencing renewed growth and purpose in its wake, she demonstrates that though grief is a lifelong process, it doesn ’ t have to be a lifelong

struggle.

From the bestselling author of "Motherless Daughters" comes the real-life story of one woman's search for a cure to her family's escalating troubles, and the leap of faith that took her on a journey to an exotic place and a new state of mind.

Kate Spencer lost her mom to cancer when she was 27. In *The Dead Moms Club*, she walks readers through her experience of stumbling through grief and loss, and helps them to get through it, too. This isn't a weepy, sentimental story, but rather a frank, up-front look at what it means to go through gruesome grief and come out on the other side. An empathetic read, *The Dead Moms Club* covers how losing her mother changed nearly everything in her life: both men and women readers who have lost parents or experienced grief of this magnitude will be comforted and consoled. Spencer even concludes each chapter with a cheeky but useful tip for readers (like the "It's None of Your Business Card" to copy and hand out to nosy strangers asking about your passed loved one).

"Anguished, beautifully written... *The Long Goodbye* is an elegiac depiction of drama as old as life." -- *The New York Times Book Review* From one of America's foremost young literary voices, a transcendent portrait of the unbearable anguish of grief and the enduring power of familial love. What does it mean to mourn today, in a culture that has largely set aside rituals that acknowledge grief? After her mother died of cancer at the age of fifty-five, Meghan O'Rourke found that nothing had prepared her for the intensity of her sorrow. In the first anguished days, she began to create a record of her interior life as a mourner, trying to capture the paradox of grief-its monumental agony and microscopic intimacies-an endeavor that ultimately bloomed into a profound look at how caring for her mother during her illness changed and strengthened their bond. O'Rourke's story is one of a life gone off the rails, of how watching her mother's illness-and separating from her husband-left her fundamentally altered. But it is also one of resilience, as she observes her family persevere even in the face of immeasurable loss. With lyricism and unswerving candor, *The Long Goodbye* conveys the fleeting moments of joy that make up a life, and the way memory can lead us out of the jagged darkness of loss. Effortlessly blending research and reflection, the personal and the universal, it is not only an exceptional memoir, but a necessary one.
