Grades 5-12

Over the past decade, the world has experienced a major economic collapse, the increasing racial inequity and high-profile police killings of unarmed Black and Brown people, the persistence of global terrorism, a large-scale refugee crisis, and the negative impacts of global warming. In reaction to social instability, there are growing populist movements in the United States and across the world, which present major challenges for democracy. Concurrently, there has been a rise of grassroots political movements focused on increasing equity in relation to race, gender, class, sexual orientation, and religion. The role of social studies teachers in preparing the next generation of democratic citizens has never been more important, and the call for more social studies teacher educators to help teachers address these critical issues only gets louder. This volume examines how teacher educators are (or are not) supporting beginning and experienced social studies teachers in such turbulent times, and it offers suggestions for moving the field forward by better educating teachers to address growing local, national, and global concerns. In their chapters, authors in social studies education present research with implications for practice related to the following topics: race, gender, sexual orientation, immigration, religion, disciplinary literacy, global civics, and social justice. This book is guided by the following overarching questions: What can the research tell us about preparing and developing social studies teachers for an increasingly complex, interconnected, and rapidly changing world? How can we educate social studies teachers to "teach against the grain" (Cochran-Smith, 1991, 2001b), centering their work on social justice, social change, and social responsibility?

The field of elementary social studies is a specific space that has historically been granted unequal value in the larger arena of social studies education and research. This reader stands out as a collection of approaches aimed specifically at teaching controversial issues in elementary social studies. This reader challenges social studies education (i.e., classrooms, teacher education programs, and research) to engage controversial issues--those topics that are politically, religiously, or are otherwise ideologically charged and make people, especially teachers, uncomfortable--in profound ways at the elementary level. This reader, meant for elementary educators, preservice teachers, and social studies teacher educators, offers an innovative vision from a new generation of social studies teacher educators and researchers fighting against the forces of neoliberalism and the marginalization of our field. The reader is organized into three sections: 1) pushing the boundaries of how the field talks about elementary social studies, 2) elementary social studies teacher education, and 3) elementary social studies teaching and learning. Individual chapters either A) conceptually unpack a specific controversial issue (e.g. Islamophobia, Indian Boarding Schools, LGBT issues in schools) and how that issue should be/is incorporated in an elementary social studies methods courses and classrooms or B) present research on elementary preservice teachers or how elementary teachers and students engage controversial issues. This reader unpacks specific controversial issues for elementary social studies for readers to gain critical content knowledge, teaching tips, lesson ideas, and recommended resources. Endorsement: (Re)Imagining Elementary Social Studies is a timely and powerful collection that offers the best of what social studies education could and should be. Grounded in a politics of social justice, this book should be used in all elementary social studies methods courses and schools in order to develop the kinds of teachers the world needs today. -- Wayne Au, Professor, University of Washington Bothell, Editor, Rethinking Schools

Now in its 4th edition, this popular text for secondary social studies methods courses integrates discussions of educational goals and the nature of history and social studies with ideas for organizing social studies curricula, units, lessons, projects, and activities. A major theme throughout is that what teachers choose to teach and the way they teach reflect their broader understanding of society, history, and the purpose of social studies education. Advocating an inquiry and activity-based view of social studies teaching that respects the points of view of students and teachers, and based in practice and experience, it offers systematic support and open, honest advice for new teachers. Each chapter addresses a broad question about social studies education; sub-chapters begin with narrower questions that direct attention to specific educational issues. Lesson ideas and materials in the book and online are especially designed to help new teachers to address common core learning standards, to work in inclusive settings, and to promote literacy and the use of technology in social studies classrooms. Chapters include highlighted Learning Activities, Teaching Activities, nd Classroom Activities designed to provoke discussion and illustrate different approaches to teaching social studies, and conclude with recommendations for further reading and links to on-line essays about related social studies topics. Activities are followed by four categories: "Think it over," "Add your voice to the discussion," "Try it yourself," and "It's your classroom." All of these are supported with online teaching material. Designed for undergraduate and graduate pre-service social studies methods courses, this text is also useful for in-service training programs, as a reference for new social studies teachers, and as a resource for experienced social studies educators who are engaged in rethinking their teaching practice. New in the Fourth Edition Provides a number of new lesson ideas paired with online lesson plans and activity sheets in every chapter Takes a new focus on data-driven, standards-based instruction, especially in relation to the common core curriculum Addresses the interactive nature of learning in updated technology sections Reflects current trends in history education Includes more of what the author has learned from working teachers Offers a wealth of additional on-line material linked to the text

No plan to increase achievement and enact reform in the social studies classroom will succeed without recognizing the central importance of the teacher as the "gatekeeper" of instruction. In this book, Thornton details why teachers must develop strong skills in curriculum planning and teaching methods in order for effective instruction to occur. Thornton helps teachers to develop a vision of their practice that will build strong social studies programs and inspire students to learn. Features: An approach to preparing purposeful teachers, acknowledging that teachers make daily decisions concerning what to teach and how to teach it. Replicable examples of the kinds of reflective practice that will enable teachers to animate classroom instruction and create a dynamic social studies curriculum. An analysis of how teachers adapt and shape state and district level curricula and classroom materials to fit the specific needs of their students--a model of how to develop an instructional program with suggestions for lesson planning. In-depth examinations of alternative ways of educating teachers in subject matter and teaching methods. "In this important book, Steve Thornton brings a Deweyan perspective to current problems in social studies education. He does more, however, because his analysis can be extended profitably to every subject in the curriculum." --From the Foreword by Nel Noddings "A thoughtful and carefully documented analysis. . . . Let us hope that this book encourages a richer dialogue than the now-tedious and generally unproductive separate disciplines v. integrated social studies debate." --Linda S. Levstik, University of Kentucky, Lexington "A refreshingly clearheaded, historically grounded, altogether enlightening analysis. This is the book I've been waiting for." --Walter Parker, University of Washington
