Deep in the heart of Tibet, Shan Tao Yun, an exiled Chinese national and a former Beijing government Inspector, is caught between the brutal Chinese army and a Western oil company. Shan has agreed to lead an expedition to return the eye of an idol, stolen almost a century ago and recently, clandestinely recovered, to a distant valley, an act that will fulfill an important Tibetan prophecy. But the pilgrimage turns into a desperate flight when the monk who is to lead them is murdered. Shan also discovers that the stone was stolen back from a brigade of the Chinese army that is now in hot pursuit. Still possessing an investigator's love of truth, Shan faces a perplexing tangle of mysteries. Why are the Chinese so desperate to retrieve the stone eye, why has an American geologist abandoned the oil company's drilling project and fled into the mountains, and why are rumors sweeping the countryside that an ancient lama is returning to liberate this country? As he digs into these questions, Shan realizes that there is more at stake than mere justice: the spiritual survival of his people is in danger as well. Complex and compelling, Bone Mountain is a spectacular achievement from a major voice in crime fiction.

Tsering Döndrup is one of the most popular and critically acclaimed authors writing in Tibetan today. In a distinct voice rich in black humor and irony, he describes the lives of Tibetans in contemporary China with wit, empathy, and a passionate sense of justice. The Handsome Monk and Other Stories brings together short stories from across Tsering Döndrup 's career to create a panorama of Tibetan society. With a love for the sparse yet vivid language of traditional Tibetan life, Tsering Döndrup tells tales of hypocritical lamas, crooked officials, violent conflicts, and loyal yaks. His nomad characters find themselves in scenarios that are at once strange and familiar, satirical yet poignant. The stories are set in the fictional county of Tsezhung, where Tsering Döndrup 's characters live their lives against the striking backdrop of Tibet 's natural landscape and go about their daily business to the ever-present rhythms of Tibetan religious life. Tsering Döndrup confronts pressing issues: the corruption of religious institutions; the indignities and injustices of Chinese rule; poverty and social ills such as gambling and alcoholism; and the hardships of a minority group struggling to maintain its identity in the face of overwhelming odds. Ranging in style from playful updates of traditional storytelling techniques to narrative experimentation, Tsering Döndrup 's tales pay tribute to the resilience of Tibetan culture.

A gripping portrait of modern Tibet told through the lives of its people, from the bestselling author of Nothing to Envy. “ You simply cannot understand China without reading Barbara Demick on Tibet. ” —Evan Osnos, author of Age of Ambition NAMED ONE OF THE BEST BOOKS OF THE YEAR BY Parul Sehgal, The New York Times • The New York Times Book Review • The Washington Post • NPR • The Economist Just as she did with North Korea, award-winning journalist Barbara Demick explores one of the most hidden corners of the world. She tells the story of a Tibetan town perched eleven thousand feet above sea level that is one of the most difficult places in all of China for foreigners to visit. Ngaba was one of the first places where the Tibetans and the Chinese Communists encountered one another. In the 1930s, Mao Zedong 's Red Army fled into the Tibetan plateau to escape their adversaries in the Chinese Civil War. By the time the soldiers reached Ngaba, they were so hungry that they looted monasteries and ate religious statues made of flour and butter—to Tibetans, it was as if they were eating the Buddha. Their experiences would make Ngaba one of the engines of Tibetan resistance for decades to come, culminating in shocking acts of self-immolation. Eat the Buddha spans decades of modern Tibetan and Chinese history, as told through the private lives of Demick 's subjects, among them a princess whose family is wiped out during the Cultural Revolution, a young Tibetan nomad who becomes radicalized in the storied monastery of Kiri, an upwardly mobile entrepreneur who falls in love with a Chinese woman, a poet and intellectual who risks everything to voice his resistance, and a Tibetan schoolgirl I forced to choose at an early age between her family and the elusive lure of Chinese money. All of them face the same dilemma: Do they eat the Chinese, or do they join them? Do they adhere to Buddhist teachings of compassion and nonviolence, or do they fight? Illuminating a culture that has long been romanticized by Westerners as deeply spiritual and peaceful, Demick reveals what it is really like to be a Tibetan in the twenty-first century, trying to preserve one 's culture, faith, and language against the depredations of a seemingly unstoppable, technologically all-seeing superpower. Her depiction is nuanced, unvarnished, and at times shocking.

They head to Tibet where they fall out of airplanes, battle Yetis, poison witches, and encounter one very large yak. If they can unravel the mysteries and outwit Sir Edmund, they might just make the discovery of a lifetime . . . and get cable television!

In about 25 BC tribesmen of the kingdom of Meroe placed a bronze head of Augustus, cut from a full-length statue, beneath the steps of a temple of victory; the decapitated head of the Emperor was thus regularly trampled underfoot. Two millennia later, during the second Gulf War, Iraqis 'insulted' a toppled bronze statue of Saddam Hussein by beating it with their shoes. Do these chronologically distant but apparently related examples of the defamation of images imply that the persons represented were regarded by their detractors as in some way 'present' in the images? Presence: The Inherence of the Prototype within Images and Other Objects reconsiders the notion of 'presence' in objects. The first book to address the issue directly, it contains a series of case studies covering a broad geographical and chronological range from ancient Greece and the Incas to industrial America and contemporary India, as well as examples from the canon of western European art. The studies reveal the widespread evidence for this striking form of response and allow readers to see how 'presence' is evoked and either embraced or repressed in differing historical and cultural contexts. Featuring a variety of disciplines and approaches, the book will be of interest to students of art history, art theory, visual culture, anthropology, psychology and philosophy.
