As a result, many young people struggle to distinguish right from wrong and seem indifferent to whether it matters. It clearly becomes the task of parents and schools to re-engage the hearts and minds of our children in forming their own characters. In *Building Character in Schools*, Kevin Ryan and Karen Bohlin draw from nearly fifty years of combined field experience to offer a practical guide to character education -- designed to help children to know the good, love the good, and do the good. Ryan and Bohlin provide a blueprint for educators who wish to translate a personal commitment to character education into a schoolwide vision and effort. They outline the principles and strategies of effective character education and explain what schools must do to teach students the habits and dispositions that lead to responsible adulthood -- from developing curriculum that reinforces good

character development to strengthening links with parents. A useful resource section includes sample lessons, program guidelines, and a parents' list of ways to promote character in their children. *Building Character in Schools* clearly defines the responsibilities of adults and students in modeling and nurturing character and sets forth practical guidelines for schools seeking to become communities of virtue where responsibility, hard work, honesty, and kindness are modeled, taught, expected, celebrated, and continually practiced.

As stated in the introduction, "A person's character is something that is shaped with help from those around us. The strategies included in this collection have been developed to help you, our colleague in education, reinforce positive character traits in your students in small, yet meaningful ways. We know that your efforts

to build character in your classroom will have a positive impact in the lives of your students and those around them. A person's character stands above all else and is long remembered."

In elementary schools across the country, teachers are expected to provide at least five minutes of character education each day. This book makes it easy to meet that requirement in a meaningful way. It includes 180 character vignettes—five for each of the 36 weeks in the school year—grouped by trait. Each features kids in real-life situations making decisions that reflect their character. Each is short enough to be read aloud; all can be used as starting points for discussion, to support an existing character education program, or as the basis for an independent program. An excellent tool for the classroom or the character-conscious home.

In *Activities for Building Character and Social-Emotional Learning*, hundreds of user-friendly lesson plans help teachers build attitudes of respect and caring, reduce problem behaviors, empower students to solve problems, and educate the whole child socially, emotionally, and academically. The lessons' literature-based connections allow teachers to 'build in' rather than 'add on' social-emotional learning (SEL) as part of the daily curriculum. The four teacher resources in the *Safe & Caring Schools®* series can also be implemented as a schoolwide preK-8 program.

and straightforward tenets from moral education, social-emotional learning, and positive psychology.

This book provides a reconstruction of Aristotelian character education, shedding new light on what moral character really is, and how it can be highlighted, measured, nurtured and taught in current schooling. Arguing that many recent approaches to character education understand character in exclusively amoral, instrumentalist terms, Kristjánsson proposes a coherent, plausible and up-to-date concept, retaining the overall structure of Aristotelian character education. After discussing and debunking popular myths about Aristotelian character education, subsequent chapters focus on the practical ramifications and methodologies of character education. These include measuring virtue and morality,

asking whether Aristotelian character education can salvage the effects of bad upbringing, and considering implications for teacher training and classroom practice. The book rejuvenates time-honoured principles of the development of virtues in young people, at a time when "character" features prominently in educational agendas and parental concerns over school education systems. Offering an interdisciplinary perspective which draws from the disciplines of education, psychology, philosophy and sociology, this book will appeal to researchers, academics and students wanting a greater insight into character education.
