This set of volumes is a companion to a program, supplemented by lectures and dissection, on the study of human anatomy. Each volume highlights important general concepts of anatomy and lists the structures in context that must be understood in a study program. The coverage caters for the needs of students of medical and paramedical disciplines. Emphasis is on carefully organizing major regions and promoting focused active learning through accurate labeling of anatomical drawings and posing clinical questions.

Each of the four levels comprises about 80 hours of class work, with additional time for the self-study work. The Teacher's Book contains all the pages from the Classroom Book, with interleaved teaching notes including optional activities to cater for different abilities. There is a video to accompany the Beginner, Pre-intermediate and Intermediate levels. Each video contains eight stimulating and entertaining short programmes, as well as a booklet of photocopiable activities. Free test material is available in booklet and web format for Beginner and Pre-intermediate levels. Visit www.cambridge.org/elt/liu or contact your local Cambridge University Press representative.
