Oracle Identity Manager 11g R2: Essentials
The username was updated in OIM, and provisioned to Active Directory. Due to client requirements, changes made in OIM would not affect the Epic accounts. The client's Epic team updated the account name on the Epic side, but due the OIM configuration, this meant that the account name on the accounts tab in OIM was still set to SMITHJNO.

Account Name Inconsistencies For Oracle | IDWORKS
Introduction OIM 11g R2 being such a comprehensive provisioning solution, it provides API's for almost every aspect of functionality available in the product. This makes it a little difficult to decide which examples are needed the most in the documentation.
